## Thank You for choosing a Monsoon Boat

Thank you for purchasing a Monsoon Marine Boat. We know that you will have many years of boating pleasure in your new boat and we will do everything we can to make ownership of your Monsoon boat very special.

We at Monsoon Marine believe that you will get the very best from your boat if you have a good understanding of how it works and what you need to do to keep it in the very best condition.

By understanding how your boat operates and the maintenance required to maintain its optimum performance you should have hassle free boating.

Many boats are used in harsh, saltwater environments and it is very important that you read your owner's manual to make sure you are aware of the routine maintenance required to keep your boat looking great and performing well.

Carefully read your owner's manual, warranty and any other information or literature on items that are supplied with your boat. Complete any manufacturers' warranties for fixtures and fittings and carefully read their instruction manuals.

To ensure everyone is treated fairly, our warranty below lists our obligations and yours, in the unlikely event that you need help with a warranty issue.

**11.** This warranty specifically does not cover pumps (which if run dry or allowed to become clogged may burn out), light globes, trailer bearings, tyres, batteries, fuses and normal wear and tear. All parts fitted by Monsoon Marine to boats that have a separate manufacturer's written warranty are covered by that manufacturer's warranty and not covered by this warranty.

**12.** Accessories, engines, trailers, electrical devices, parts and any other fittings fitted by the dealer or the purchaser and any effect they may have on the products supplied by Monsoon Marine are the responsibility of the dealer and purchaser and are specifically not covered by this warranty.
